COLONOSCOPY PREPARATION INSTRUCTIONS

PLEASE READ THIS INFORMATION AS SOON AS YOU RECEIVE IT!

If you have any questions about these instructions or to make a change to your appointment, Please call:

- **OFFICE:** 314.529.4900 - Option 2
- **EXCHANGE:** 314.388.6519

Date and Time

Your procedure is scheduled for _____ at _____

Please arrive **1 hour prior** to your procedure. We work very hard to stay on schedule. We need this time to complete paperwork, place an IV, etc.

Location

The St. Luke's GI/Endoscopy lab is located at 232 S. Woods Mill Road, Chesterfield, MO 63017. The GI/Endoscopy Lab is located on the first floor, Suite 130 of the East Medical Building.

From Hwy40/Interstate 64:

- ▶ Go north on Woods Mills Road (Hwy. 141) 1/2 mile to Conway Road.
- ▶ Turn right at the stoplight onto Conway Road. Turn left into the hospital east entrance.
- ▶ Turn left again into the east surface parking lot or East Garage (3 levels). There is direct access to the East Medical Building from Level 1 or 3. Complimentary valet parking is available and is highly encouraged. Valet parking begins at 7:30am.

If you cannot keep your scheduled appointment, please notify us at least **2 business days** before your scheduled time.

Please review the "special circumstances" section of this document carefully to see if you require special instructions or modifications.

BOWEL PREPARATION:

Necessary items:

- ▶ One 8.3 oz bottle of Miralax (Polyethylene glycol powder). This is available over the counter

- ▶ Four 5 mg. Dulcolax pills. Dulcolax is available over the counter. Please purchase the laxative formula not the stool softener.
- ▶ Two 32oz. bottles of Gatorade, any flavor.

Two days prior:

- ▶ Eat as you would normally, or eat less than normal. Overindulging on food will make it harder to get the colon cleaned out adequately.

The day prior to your procedure:

- ▶ Consume only clear liquids on this day. **No solid food!** Examples of clear liquids include: water, any kind of soda, Gatorade, coffee, Popsicles, tea, Jell-O, broth, bouillon, and fruit juices that you can see through (apple and grape are OK, orange and tomato are not). You may have all the clear liquids you desire throughout this day and evening. No alcohol allowed. Please note that if you consume red Jell-O, Gatorade or popsicles with your bowel prep that your stool may be red in color. This is nothing to be alarmed about.
- ▶ Mix half of the 8.3 oz bottle of Miralax in each 32 oz. bottle of Gatorade until dissolved and keep cold in the refrigerator.
- ▶ Begin bowel preparation between 12 and 4pm depending on whether you plan to work full day prior to the procedure. (Please note that starting the bowel preparation later in the day may lead to a more restless night because of ongoing bowel movements.)
- ▶ For those choosing to start the bowel preparation at **noon**:
 - take four 5 mg. Dulcolax pills with water and continue clear liquids.
 - at 12:30pm, start drinking the first bottle of Miralax/Gatorade solution. Drink 1 glass every 15-20 minutes until the first bottle is gone.
 - Between 3-4pm, begin drinking the second Miralax/Gatorade solution and finish all 32 oz.
- ▶ For those choosing to start the bowel preparation at **4pm**:
 - take the four 5 mg. Dulcolax pills with water and continue clear liquids
 - at 4:30 pm start drinking the first bottle of Miralax/Gatorade solution. Drink 1 glass every 15-20 minutes until the first bottle is gone
 - Between 7-8 pm, begin drinking the second Miralax/Gatorade solution and finish all 32 oz.
- ▶ **DO NOT CONSUME ANYTHING AFTER MIDNIGHT EXCEPT MEDICATIONS UNTIL AFTER YOUR PROCEDURE.**
- ▶ You may take your usual medications with sips of water **both the day before and as early as possible on the day of the procedure.**
- ▶ If your bottom is sore, try an ointment such as A&D ointment, Preparation H, or Vaseline to the anal area as needed.

The day of the procedure:

- ▶ **If your procedure is scheduled before 2:30 pm, do not consume anything after midnight, the day prior to your procedure.**
- ▶ **If your procedure is scheduled at or after 2:30pm, you may consume clear liquids only until 7 am the morning of your procedure.**

- ▶ Arrive at the GI/Endoscopy Lab at St. Luke's Hospital **1 hour prior** to your scheduled procedure time. Visit St. Luke's Hospital website at www.stlukes-stl.com for maps and directions.
- ▶ **You will need someone to drive you to and from the hospital AND wait in the waiting room until the procedure is done. The procedure can't be done unless you have a driver. You will be there for approximately 2 to 2-1/2 hours from the time you arrive.**
- ▶ We have enclosed a patient information form and a medication list. **Please fill these out at home and bring them with you to your appointment along with your insurance cards and drivers license.** If you have any questions, the nurse will go over it with you at the time of your appointment.
- ▶ All Female Patients: if you are between the ages of 12-49, you will be required to give a urine specimen unless you have had a Hysterectomy or Tubal Ligation.

SPECIAL INSTRUCTIONS:

Patients with an automatic implantable defibrillator and /or pacemaker: Please call us at least five (5) days before the procedure for instructions.

Coumadin, Jantoven (warafin): Call your primary care doctor or cardiologist and ask if you can safely stop the Coumadin four (4) days before your procedure. If your doctor tells you that you cannot stop the Coumadin, then please call us immediately to make us aware of this. We will then discuss with you the various options available.

If you take **Eliquis (apixaban), or Pradaxa (dabigatran):** Call your primary care doctor or cardiologist and ask if you can safely stop these medications 48 hours before your procedure. If your doctor tells you that you cannot stop these medications, please call us immediately to make us aware of this. We will then discuss with you the various options available.

If you take **Xarelto (rivaroxaban), Aristra (fondaparinux), Fragmin (dalteparin), Iprivask (desirudin), or Lovenox (enoxaparin):** Call your primary care doctor or cardiologist and ask if you can safely stop these medications 24 hours before your procedure. If your doctor tells you that you cannot stop these medications, please call us immediately to make us aware of this. We will then discuss with you the various options available.

Iron: Stop iron four (4) days before the procedure. Iron can make preparation difficult and result in a poorly cleaned colon.

Antibiotics for procedures: Recent publications from both the American Heart Association and American Society for Gastrointestinal Endoscopy state that antibiotics are not necessary for routine endoscopic procedures.

Insulin: Call your primary care doctor at least five (5) days before the procedure and ask for instructions.

Plavix: (clopidogrel) and aspirin: It is not necessary to stop Plavix and aspirin prior to your procedure.

Herbal Medications: It is best to stop any herbal remedies five (5) days before the procedure as many of them can thin the blood and increase the risk of bleeding during the procedure.

ADDITIONAL INFORMATION:

Approximately 3 business days prior to your procedure, you will be receiving an automated phone call from our Phone Tree system reminding you of your appointment. Please listen to this entire message and press the appropriate number for your response regarding your appointment. If you are not at home, Phone Tree will leave a message on your answering machine. Unless you want to cancel or reschedule your appointment, it is not necessary to call the office to confirm. We will assume you are keeping your scheduled appointment unless we hear from you.

You will also receive a call from St. Luke's GI/Endoscopy Lab a couple days prior to your appointment to go over your health history.

We also suggest that you contact your insurance to verify coverage for colonoscopy. Some insurance plans cover colonoscopy for colon cancer screening or routine/preventative care. Other plans only cover colonoscopy if you are having symptoms or they may say it's covered only if "medically necessary". There are many different insurance companies and each individual plan is different. Please let the physician know if your plan covers colonoscopy for colon cancer screening so we can code it properly.

You may visit our website (www.gatewaygi.com) for more detailed information regarding the physician you will be seeing and other services offered.

SCREENING VS. DIAGNOSTIC COLONOSCOPY

You have been scheduled for a colonoscopy with our office; it is important that you understand the difference between a screening colonoscopy and diagnostic colonoscopy.

- If you are having a screening colonoscopy you have *no signs or symptoms*.
- If you are having a diagnostic colonoscopy you *have signs and symptoms* such as: rectal bleeding, change in bowel habits, blood in stool, diarrhea, constipation, anemia, etc.
- Some insurance companies may not cover screening colonoscopies if you are under the age of 50.
- Some insurance companies may not consider high risk colonoscopy as a screening; such as personal history of colon polyps, colon cancer or a family history.
- If the Physician performing your procedure finds a polyp or abnormality, your benefits may change and your insurance policy may process your claim as a diagnostic procedure.
- Prior to starting your bowel preparation, you should contact your insurance company to check your benefits for a colonoscopy.
- *It is important that you indicate the reason for your procedure at the time of service, so that it can be coded properly.*

Please call our billing department at 314-529-4990 if you have any questions.

FINANCIAL DISCLOSURE

Dear Patient:

We would like to take this opportunity to welcome you, and to let you know that we are committed to providing you with the best possible care. Please take a few minutes to read this important information regarding our financial policies. We will gladly discuss your proposed treatment and answer any questions you have relating to your charges:

For billing purposes, there are separate service components for which you will be billed separately:

1. **Physician Professional Charge:** We will bill this charge for you. This billing is for the physician's professional services that are provided during your procedure. **If you are a new patient to our office there will be a separate consultation fee.**
2. **Facility Charge:** There will also be a facility bill for the use of the facility in which your procedure is being performed. If the procedure requires additional services the billing will be increased depending on the added requirement. The facility will bill these charges separately to you.
3. **Laboratory and Pathology Charge:** If you have a biopsy taken, you will receive a bill from the laboratory that processes your biopsy.
4. **Anesthesia Charge:** If your procedure utilizes the services of the anesthesia provider, this professional charge will be billed separately to you. This billing is for the anesthesia provider's professional services that are provided during your procedure.

Payments made to the facility on the day of service are credited towards the facility charge only.

If you have insurance, we will file a claim for you. Please understand that your insurance is a contract between you and your insurance company and that complete payment to us is ultimately your responsibility. Under certain circumstances some insurance carriers may not always cover or may deny payment for services provided. Our office will bill your insurance first. After your insurance processes the claim, we will forward a statement to you if there is any patient responsibility. Please remit payment in a timely fashion or call the office to make payment arrangements.

If you belong to an insurance plan, we will follow guidelines set forth in those plans. Please be sure to contact your primary care physician if your insurance requires a referral. Services cannot be rendered if proper authorization has not been given. We **DO** participate in Medicare.

If you do not have insurance, payment for services is due at the time services are rendered unless payment arrangements have been approved in advance. To assist you, we accept checks, MasterCard, Visa, and Discover.

We recognize that temporary financial problems may affect timely payment of your account. If such problems arise, we encourage you to contact us promptly for assistance in the management of your account. We are willing to work with you, but we need you to communicate with us. We do use outside agencies as a means of collections should we deem it necessary.

If you have questions about the above information or any uncertainty regarding insurance coverage, don't hesitate to ask us. We are here to help you. You can reach our billing department at 314-529-4990.
